---

I am assuming that you have the data management plan, as Marty was the one who transferred that to Matt upon his leaving immediately after it had been signed. Matt Loesel should have the signed copy.

As for the sample control forms, I am waiting to hear back from Heth about how he wants to handle the signing of them. I will get back with you this morning, hopefully with the scanned file to Gregg.

How much can you help Gregg out? Or can you get START to help him?

I'm in Picher, phone and text services are bad.

Greg:

Can you get your contractor to help me out with two things I need. I have a fussy QA manager.

While we made copies of all the sample control forms we gave to your START with the air samples, most don't have signatures showing someone from START received them.

Can you get one of your START folks to pdf the whole lot, make sure the signatures are there, and send it to me?

Second -- there was a region data management plan I supplied to the QA manager, primarily as a courtesy. It was a draft version without signatures. Can I get the finalized Region 6 document with signatures. Again a pdf is fine. You had previously supplied a QAMP document with signatures, this is a different thing this time.

Sorry. And thanks.
